PROFESSIONAL SUMMARY

Full Stack Developer with 8+ months of internship experience in Python Full Stack Web Development, plus hands-on project work across React.js on the frontend and Python/Django REST Framework on the backend. Experienced with relational (MySQL), document (MongoDB), and graph (Neo4j) databases; comfortable building REST APIs, implementing JWT-based authentication, designing graph-based recommendation systems with Cypher queries, and translating UI designs into responsive, component-based interfaces. Strong fundamentals in data structures and problem solving (200+ problems solved on HackerRank and LeetCode). Seeking an entry-level Frontend, React, Python, or Full Stack Developer role to contribute to production codebases and grow under experienced engineers.

TECHNICAL SKILLS

Languages: Python, JavaScript (ES6+), TypeScript, HTML5, CSS3

Frontend: React.js, React Hooks, React Router DOM, Redux Toolkit, Vite, Axios, Tailwind CSS, Bootstrap, Responsive Web Design, Component-Based Architecture

Backend: Django, Django REST Framework (DRF), Flask, FastAPI, REST API Design, JWT Authentication, CRUD Operations

Databases: MySQL, MongoDB, Neo4j (Graph Database), Cypher Query Language

Tools & Platforms: Git, GitHub, AWS (Basics), Linux, VS Code, Postman

EXPERIENCE

Python Full Stack Web Development Intern — Naresh i Technologies Sept 2025 – May 2026

- Completed an intensive internship in Python Full Stack Web Development, working across the frontend, backend, and database layers of web applications.
- Built responsive, component-based user interfaces with HTML5, CSS3, JavaScript (ES6+), and React.js, and integrated them with backend APIs using Axios.
- Developed REST APIs with Django and Django REST Framework, including CRUD operations and JWT-based authentication.
- Worked with MySQL and MongoDB for data modeling and storage, and used Git/GitHub for version control while building end-to-end projects.

PROJECTS

MegaMart — E-Commerce Application | React.js, Django, DRF, MySQL, MongoDB github.com/codesiddhu/MegaMartse

- Built a full-stack e-commerce application end to end, pairing a React.js frontend with a Django REST Framework backend across 4 core modules: product catalog, cart, checkout, and order management.
- Implemented JWT-based user authentication and authorization to secure account and order data.
- Designed RESTful API endpoints for products, cart, and orders, and connected them to MySQL/MongoDB for persistent storage.
- Structured the codebase using modular, reusable React components to keep the UI maintainable as features were added.

Movie Recommendation System | React.js, Vite, Tailwind CSS, DRF, Neo4j github.com/codesiddhu/MovieRecomendtion

- Built a full-stack movie recommendation platform with a React.js (Vite) frontend and a Django REST Framework backend, using Neo4j as a graph database to model users, movies, genres, and actors.
- Designed a graph-based recommendation engine in Cypher that traverses User-LIKES-Movie and Movie-BELONGS_TO-Genre relationships to surface personalized recommendations by genre affinity.
- Developed REST API endpoints for movie listing, movie details, user creation, liking movies, and generating recommendations, consumed by the frontend via Axios.
- Implemented client-side routing with React Router DOM and built a responsive, component-based UI styled with Tailwind CSS.

Bus Travel Agency — Bus Booking App | React.js, Redux Toolkit, Tailwind CSS, Django, DRF github.com/codesiddhu/Bus_travel_agency

- Built a full-stack bus ticket booking app with a React.js frontend and Django REST Framework backend, covering routes, schedules, seat selection, and bookings.
- Managed application-wide state (user session, search results, booking flow) with Redux Toolkit.
- Developed REST API endpoints in Django REST Framework for bus search, seat availability, and booking management, consumed by the frontend via Axios.
- Designed a responsive, component-based UI with Tailwind CSS that works across mobile and desktop screens.

EDUCATION

Master of Computer Applications (MCA) — CGPA: 8.75 Feb 2023 – Nov 2025
Sri Venkateshwara Engineering College of Technology, Chittoor

Bachelor of Computer Science — CGPA: 8.45 Jan 2020 – Jun 2023
Sri Rama Krishna Degree College, Nandyal

CERTIFICATIONS & ACHIEVEMENTS

- **Datheon** — Full Stack Web Development Internship Certificate (4 weeks, completed Oct 22, 2026) | Certificate ID: CERT-DT-2026-Z53GJ | Verify: datheon.in/verify
- NPTEL — Data Analytics with Python | NPTEL — OOP using UML & Java Design Patterns | GreatStack — React JS | HackerRank — Problem Solving (Basic)
- Solved 100+ coding problems on HackerRank and 100+ on LeetCode (JavaScript & DSA fundamentals).
